

HOUSE OF HOPE

The Seger Family - Mbarara, Uganda

PROFESSIONAL DEVELOPMENT

Kellie and I have been spending a lot of time planning for the anticipated opening in Feb. 2019. We visited Amazima School & Good Shepherd's Fold to observe procedures & learn best practices from like-minded people serving orphans & vulnerable families elsewhere in Uganda. Their insight has been extremely helpful. We have sought pricing on school uniforms, student desks, dry erase boards, triple decker bunk beds, teacher desks, & tons of other items. We have been working on detailed budgeting for daily school operations & monthly scholarship plans. We hope to reveal these publicly soon.

PLEASE LIFT UP THESE REQUESTS

1

CADEN & BP

Caden is asking many ? about being b*rn again. Please join in requesting both to be s@ved & to grow in wisdom, stature, & favor with G*d & men. We are trusting the Splnt to draw them.

2

KELLIE & MICHAEL

Kellie weaves Truth into daily life & school lessons for the boys. Ask G*d to powerfully use K to point our boys to Him. Michael oversees HOH tasks & tries to build relationships. Ask G*d to give wisdom in decision-making & for Truth to fall on good soil where Evil One can't pluck away

3

FAITHFULNESS

To boldly proclaim the G*spel & make di\$cles in our home (children and employees) & community (1 Corinthians 4:1-2). We are helping with a new ch~rch plant in our village and spending time with many young followers.

10TH ANNIVERSARY

We took a 2 night trip to celebrate w/o the kids. We had a blast.

WEBARE MENUNGA

"Thank you very much" to our friends at Mantee BC for the care package. The timing was perfect!

CHURCH PLANT

Praise G*d! This man was s@ved during a service at the ch*rch plant in our village. The p@stor has begun di\$clipse\$hip.

Michael's Parents & Grandma Arrived for a Visit

Sharing Truth with neighbors during a break from soccer, basketball, & water balloons

CONSTRUCTION PROGRESS & NEEDS

The school's roof is totally finished. Next in line is plastering the interior & exterior walls and adding concrete floors. Then, we will begin on dorms & a shower house.

WE NEED YOUR HELP!

Please pray about ways your church, business, or family can financially support the House of Hope construction process! Consider a tax deductible gift today.

DISCIPLESHIP CLASS

Michael is teaching a discipleship class for 23 young adults & 1 senior adult. Their hunger for Truth is refreshing & motivating. Students are learning how to share Truth & their personal testimony/story. Weekly, the students practice sharing in the group & learn a new Bible lesson. Then, they are challenged to share their story or the lesson 3+ times before the next class. S/O to Ryan Spencer for modeling this for me in SE Asia in 2017.
